EXPERIENCE

MERN STACK DEVELOPER CERTIFICATION -TRAINEE, 11/2023 - 06/2024
GUVI, Chennai

- As part of certification programme, I have developed a comprehensive HR Management System designed to streamline HR processes and improve organizational efficiency. The system included features for employee management, leave tracking, payroll management, and performance evaluation.

PROJECTS

- ➔ **HR MANAGEMENT** - Full-Stack Developer for HR management system in MERN stack, focusing on building a responsive web application to automate HR processes and manage employee data efficiently.
- ➔ **TODO LIST** - Full-Stack Developer for a To-Do List application in the MERN stack, responsible for designing and implementing features like task management, CRUD operations, and real-time updates.
